

## INSTANTLIFT FACIAL CREAM

To ensure you are using the best, the Instantlift Facial Cream has been enhanced with added performance ingredients.

Instantlift works to reduce the visible signs of aging by helping the skin appear lifted and tightened.

It also doubles as a fabulous make-up primer (a tip we received from numerous celebrity make-up artist clients!)

### **EVEN MORE PERFORMANCE INGREDIENTS HAVE BEEN ADDED, INCLUDING:**

- **LUPINUS ALBUS (LUPIN) SEED EXTRACT** - (also known as White Lupin) Derived from the legume family, this ingredient softens the skin and plays an important role due to its protein content and lipid ratio. In studies, this ingredient was shown to have the ability to increase the synthesis of type I collagen and promote production of high-quality collagen to improve skin firmness and elasticity, and reduce facial contour sagging.

- **DIPALMITOYL HYDROXYPROLINE** - A unique liposomal system that communicates to the skin, promoting the production of collagen III (the type of ample collagen found in youthful skin).

- **BETA SITOSTEROL** - Works to keep skin moistened, improving its metabolism, preventing inflammation, and assisting in the prevention of skin aging.

- **QUILLAJA SAPONARIA (SOAP BARK) EXTRACT** - Derived from an evergreen tree native to warm temperate regions of South America, Soap Bark Tree has a long history of medicinal use. In this formula, its natural fat is used for its nourishing properties to help relax and protect the skin.

- **KIGELIA AFRICANA FRUIT EXTRACT** - Widespread across Africa, this fruit has a long history of both internal and topical application. Traditionally, women would rub its pulp onto their breasts as a skin tightening and firming treatment. In addition, it was used to dress a wide variety of wounds and infections. Scientists suspect these uses are justified due to the variety of medicinal compounds, flavonoids (antioxidant activity), and fatty acids found in this fruit.

**THIS NEW FORMULA IS PACKAGED IN A STUNNING 1.7 OZ AIRLESS BOTTLE TO ENSURE MAXIMUM FRESHNESS.**

ITEM#: R152-2

\*All additional sizes, including 4 oz. and 8 oz., will be discontinued and will only remain available while supplies last.

Instantlift will diminish visible signs of aging, making your skin look youthfully plump and firm.
