## ABOUT LISA

I’m a licensed esthetician in both Oregon and California and I’ve been in the beauty business over 30 years, extensively trained by Epicuren in enzyme therapy and fruit acids. Epicuren is a medically based skin care line. I’m also certified with Yon-ka® aroma therapy treatments; Yonka is an essential oil based skin care line. Working with plastic surgeons and dermatologists has given me experience with pre and post surgery treatments for laser and plastic surgery and microdermabrasion. I’ve also extensively trained in Phytomer and Vie, both amazing plant based skin care lines, and I taught make-up in conjunction with skin care at Joe Blasco’s Hollywood Make Up School in Hollywood California. Teaching students was truly enjoyable and I now share this knowledge with my wonderful clients.
